English

English 9-1 (p) English 9-2 (p)	9	College Prep Course Fulfills English Graduation Requirement Fulfills "B" Requirement for UC/CSU (English)	English 9 is a rigorous course designed to begin the preparation for college. Students read novels, dramas, short stories, poetry, and nonfiction works and learn to analyze and compare writings in terms of theme, historical influence, and literary devices employed. Vocabulary is expanded through the study of word roots, students broaden listening and speaking skills, and learn to write effectively and coherently. They produce a variety of writings including creative pieces, and autobiographical, expository, analytic, reflective, persuasive, cause and effect, compare and contrast, and research essays. Students will complete a midterm ¹ and final. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice Course 4</i> <i>Writing: assignments from Glencoe Reader's Choice</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 3</i>
English 9-1 English 9-2	9	Graduation Course Fulfills English Graduation Requirement	English 9 focuses on establishing the foundational skills students will need to be successful in higher level English courses. They will read and respond to historically or culturally significant works of literature. They will develop essay-writing skills and will complete a series of writing assignments, such as responses to literature, expository and argumentative essays, technical documents, and business letters. Students will complete a midterm and final or an alternative form of assessment that is comprehensive in nature may be proposed. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice Course 4 or Selected Novels and Literature Response Activities</i> <i>Writing: assignments from Glencoe Reader's Choice or AGS Basic Composition or Great Source Inside Writing</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 3</i>

¹ 2016-2017

English Fundamentals 9-1 English Fundamentals 9-2	9	Graduation Course Fulfills English Graduation Requirement Prior Approval Needed	This course emphasizes grammar skills, beginning with sentence patterns and going on to the eight parts of speech, phrases, and clauses. It reviews spelling, capitalization, and punctuation. Students practice these skills by completing several writing assignments, including definition, compare and contrast, narrative, research essay, poetry, response to literature, and letter writing. Students read novels, dramas, short stories, poetry, and nonfiction works and learn to analyze and compare writings in terms of theme, historical influence, and literary devices employed. <i>This is a one-year, 10-unit course</i>	<i>Bridges to Literature 1</i>
English 10-1 (p) English 10-2 (p)	10	Graduation Course Fulfills English Graduation Requirement Fulfills "B" Requirement for UC/CSU (English)	English 10 is a rigorous course designed to prepare students for college. Students read novels, dramas, short stories, poetry, and nonfiction works that come from various world cultures and eras and analyze and compare writings in terms of theme, historical influence, and literary devices employed. Vocabulary is expanded through the study of word roots, students broaden listening and speaking skills, and write effectively and coherently. They produce a variety of writings including performance scripts, creative pieces, and autobiographical, expository, analytic, reflective, persuasive, cause and effect, compare and contrast, and research essays. Students will complete a midterm and final. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice: World Literature</i> <i>Writing: assignments from Reader's Choice</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 4</i>
English 10-1 English 10-2	10	College Prep Course Fulfills English Graduation Requirement	English 10 focuses on establishing the foundational skills students will need to be successful in higher level English courses. They will read and respond to historically or culturally significant works of literature. Students will continue to develop essay-writing skills and will complete a series of writing assignments, such as responses to literature, expository and persuasive compositions, technical documents, and business letters. Students will complete a midterm and final; an alternative form of assessment that is comprehensive in nature may be proposed. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice Course 5 or Glencoe Reader's Choice: World Literature or AGS World Literature or Selected Novels and Literature Response Activities</i> <i>Literature: Glencoe Reader's Choice: World Literature</i> <i>Writing: assignments from Reader's Choice or Great Source Inside Writing</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 4</i>

American Lit 1 (p) American Lit 2 (p)	11	College Prep Course Fulfills English Graduation Requirement Fulfills "B" Requirement for UC/CSU (English)	American Lit engages students with the literature of the United States as it reveals the character, culture, and concerns of our country's inhabitants throughout its history. The literature selected represents perspectives from a variety of groups. Students complete a variety of writing assignments that require research, analysis, and multiple drafts; they work on developing their own voice and style in academic writing. Students practice reading strategies, increase their vocabulary, and improve their public speaking skills. Students will complete a midterm and final. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice: American Literature</i> <i>Writing: assignments from Glencoe Reader's Choice</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 5</i>
American Lit 1 American Lit 2	11	Graduation Course Fulfills English Graduation Requirement	American Lit focuses on analyzing and reading American literature. Students will learn about the contrasts between the major periods, themes, styles, and trends and describe how works by members of different cultures relate to one another in each period. Students will study figurative language in detail and will continue to develop both their reading and writing vocabularies. Students will expand their writing skills, and will be required to complete a series of writing assignments, such as various types of narratives, responses to literature, reflective compositions, historical investigation reports, job applications and resumes, and multimedia presentations. Students will complete a midterm and final or an alternative form of assessment that is comprehensive in nature may be proposed. <i>This is a one-year, 10-unit course</i>	<i>Literature: Glencoe Reader's Choice: American Literature or Selected Novels from American authors and Literature Response Activities or AGS American Literature</i> <i>Writing: assignments from Glencoe Reader's Choice</i> <i>Vocabulary: Great Source Vocabulary for Achievement Course 5</i>

ESL 6		*Must be taken concurrently with ESL Literacy 5, 6	reading formats, including articles, interviews, biographies, folktales, realistic fiction, and more. Students work through readers with guided instruction, audio read-alouds, and selections with compelling topics and visuals. Activities concentrate on the fundamentals of written and oral language skills in conjunction with the study of literature and vocabulary development. <i>This is a one-year, 10-unit course</i>	
ESL 7 ESL 8	9, 10, 11, 12	Fulfills English Graduation Requirement *Must be taken concurrently with ESL Literacy 7, 8	This course is designed to help students to develop proficiency in English. Course content includes an introduction to a broad mix of genres and real-world reading formats, including articles, interviews, biographies, realistic fiction, and more all with an emphasis in Science. Students work through readers with guided instruction, audio read-alouds, and selections with compelling Science topics and visuals. Activities concentrate on the fundamentals of written and oral language skills in conjunction with the study of literature and vocabulary development. <i>This is a one-year, 10-unit course</i>	<i>Evan-Moor Hot Topics Science</i>

Social Sciences

World History 1 (p) World History 2 (p)	10	College Prep Course Fulfills World History Graduation Requirement Fulfills "A" Requirement for UC/CSU (History/Social Science) Available online	Students in World History study historical developments which have shaped the modern world. Particular emphasis is placed on the rise of democratic ideas and the creation of the modern nation-states of Europe and North America, as well as examining political structures in South American, Asian and African countries. Students develop an understanding of current events and relate them to their historical roots. The course follows the tenth-grade standards established by the state of California. Project-based assignments and writing activities are major components of this course. Students will complete a midterm and final. <i>This is a one-year, 10-unit course</i>	Glencoe <i>World History: Modern Times Or</i> Glencoe <i>World History and Geography: Modern Times*</i>
--	----	--	---	--

Course Title Transcript Code	Grades	Special Information	Course Description	Textbook Options
World History 1 World History 2	10	Graduation Course Fulfills World History Graduation Requirement Available online	World History is a survey course in social science that covers the impact of major turning points that have shaped the modern world, from the late eighteenth century through the present, including the cause and course of the two world wars. Students develop an understanding of current world issues and relate them to their historical, geographic, political, economic, and cultural contexts. Students will complete a final or a pre-approved culminating project. <i>This is a one-year, 10-unit course</i>	Glencoe <i>World History: Modern Times</i> or AGS <i>World History</i>
US History 1 (p) US History 2 (p)	11	College Prep Course Fulfills United States History Graduation Requirement Fulfills "A" Requirement for UC/CSU (History/Social Science) Available online	Students in US History will examine the major turning points in American history in the 20 th century. Following a review of the nation's beginnings, they will move on to study the rise of industrialization, urbanization, and immigration and their impact on the nation's political, social, and economic development. They will cover a series of units: the creation of the United States, the Progressive Era, World War I, The Great Depression, World War II, the Cold War, Social Reform, the Civil Rights Movement, the Vietnam Era, and contemporary American society. Throughout their studies, students will look at the underlying political and economic impact on each of these time periods. Project-based assignments and writing activities are major components of this course. Students will complete a midterm and final. <i>This is a one-year, 10-unit course</i>	Glencoe <i>American Odyssey</i> or Glencoe <i>United States History and Geography: Modern Times*</i>
US History 1 US History 2	11	Graduation Course Fulfills United States History Graduation Requirement Available online	Students in US History study the major turning points in American history in the twentieth century. Following a review of the nation's beginnings, they will move on to study the rise of industrialization, urbanization, and immigration and their impact on the nation's political, social, and economic development. The influence of religion on the founding of America is examined, as well as the rise of the United States to a role as a world power at the beginning of the twentieth century. Students will learn about the major developments of the twentieth century, including the Great Depression	Glencoe <i>American Odyssey</i> or AGS <i>United States History</i>

			and the New Deal, American participation in world wars, post-World War II America, the Cold War, the Civil Rights movement, and U.S. global policy. Students will complete a final or a pre-approved culminating project. <i>This is a one-year, 10-unit course</i>	
World Cultures & Geography 1 (p) World Cultures & Geography 2 (p)	9-12	College Prep Course Fulfills Elective Credit For Graduation Fulfills "A" Requirement for UC/CSU (History/Social Science) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	World Cultures and Geography is a survey of the physical and cultural geography of North America, Latin America, Europe, Africa, regions of Asia, and Australia. Cultural, political, and social traditions and the role of geography are analyzed and a major focus is on how past experiences affect contemporary realities. Project-based activities and writing assignments are major components of this course. Students will complete a midterm and final. <i>This is a one-year, 10-unit course</i>	Glencoe <i>World Geography</i>
World Cultures & Geography 1 World Cultures & Geography 2	9-12	Graduation Course Fulfills Elective Credit For Graduation	World Cultures & Geography is a social science elective that offers a view of the world that focuses on the development of geographic literacy. Regions of the world are studied in three parts: physical geography, cultural geography, and current events. Students will complete a final or a pre-approved culminating project. Students completing the one-year course have extended studies in world geography and also have extra assignments and projects. <i>This course can be taken as a one-semester, 5-unit course or as a one-year, 10-unit course</i>	AGS <i>World Geography</i> or Glencoe <i>World Geography</i>
Economics (p)	12	College Prep Course Fulfills Economics Graduation Requirement	Economics teaches students basic economic terminology and concepts. Particular emphasis is placed on the economy of the United States, its current structure, and its role as a leader in the global economy of the 21 st century. Students also learn how their lives are affected by economics	Glencoe <i>Economics: Principles & Practices</i> <i>EverFi: Financial Literacy</i>

Course Title Transcript Code	Grades	Special Information	Course Description	Textbook Options
		Fulfills "G" Requirement for UC/CSU (Academic Elective)	and how to make informed economic decisions. Project-based activities and writing assignments are major components of this course. Students will complete a final. <i>This is a one-semester, 5-unit course</i>	
Economics	12	Graduation Course Fulfills Economics Graduation Requirement	Students in Economics learn the common economic terms, concepts, and how to reason economically. They will analyze elements of America's market economy and compare and contrast various types of economics systems and the influence the federal government has on the American economy. The students will analyze the elements of business organizations and the labor market, the economic behaviors of the U.S. economy as a whole, and look at the issues related to international trade. Finally, students will learn the basics of personal consumer economics. Students will complete a final or a pre-approved culminating project. <i>This is a one-semester, 5-unit course</i>	AGS Economics or Glencoe <i>Economics: Principles & Practices</i> <i>EverFi: Financial Literacy</i>
American Government (p)	12	College Prep Course Fulfills Government Graduation Requirement Fulfills "A" Requirement for UC/CSU (History/Social Science) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	American Government helps students pursue a deeper understanding of the institutions of American government and the literature which serves as both a foundation and a guiding principle to American political life. Students will learn the structures and functions of state and local government. Students also learn to appreciate their roles as responsible citizens in a democracy. Project-based activities and writing assignments are major components of this course. <i>This is a one-semester, 5-unit course</i>	Glencoe <i>U.S. Government: Democracy in Action</i>
American Government	12	Graduation Course Fulfills Government Graduation Requirement	Students in American Government will gain an understanding of American government. They will learn about the fundamental principles and values of American democracy as expressed in documents created by the Founding Fathers. They	AGS <i>United States Government</i> or Glencoe <i>U.S. Government: Democracy in Action</i>

Course Title Transcript Code	Grades	Special Information	Course Description	Textbook Options
			will also learn about the rights and responsibilities of citizenship and about the various branches of government. Students will study the Constitution and landmark U.S. Supreme Court interpretations, the electoral process for national, state, and local offices, and compare various forms of government. Students will complete a final or a pre-approved culminating project. <i>This is a one-semester, 5-unit course</i>	

Mathematics

Integrated Math 1-1(p) Integrated Math 1-2(p)	9, 10	College Prep Course Fulfills Mathematics Graduation Requirement Fulfills "C" Requirement for UC/CSU (Mathematics) Available online	Integrated Math 1 is the first of three integrated high school math courses, and combines foundational elements of basic algebra with geometry. Key topics include: expressions, equations, and inequalities; manipulating and modeling linear and exponential functions; descriptive statistics and data displays; geometric transformations, congruence, constructions, and coordinate proofs. These skills are leveraged into real-world examples and problems to develop a variety of problem solving skills. Students will complete a midterm and final. <i>This is a one-year, 10-unit course.</i>	Houghton-Mifflin Harcourt <i>Integrated Math 1</i>

Visual and Performing Arts

Art 1 (p) Art 2 (p)	9-12	College Prep Course Fulfills Visual And Performing Arts Graduation Requirement Fulfills "F" Requirement for UC/CSU (Visual and Performing Arts) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	Art 1: 2- Dimensional Design in Black and White, the first semester, focuses on the areas of line and contour drawing, conceptual design, perspective, textures and color theory in grays. The assignments are designed to create projects that meet the 5 content strands of the Visual Art Standards, with individual student work that focuses on the elements of art and design: line, black and white color use, shape/form texture, value and space. Art 2: 2- Dimensional Design in Color, the second semester, continues the instruction in art theory and applies conceptual design and color theory. The projects focus on spatial design, color analysis, contrasting colors, vibrating, repeating images and the psychological effects of color. Assignments are designed to cover the same 5 content strands, and include projects that develop color harmony, achromatic and monochromatic color mixtures, and color that produces feelings,	TLC ART 1 & 2 course materials

			sensations and optical illusions. <i>This is a one-year, 10-unit course</i>	
Music 1 (p) Music 2 (p)	9-12	College Prep Course Fulfills Visual And Performing Arts Graduation Requirement Fulfills "F" Requirement for UC/CSU (Visual and Performing Arts) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	This course focuses on developing students' musical skills through performance, technique, music reading, and theory. Throughout the course students will be required to read, notate, listen, and analyze musical works representing various genres, styles, and cultures. Students will perform solo on an instrument and/or in ensembles. Students will learn how music is used in a variety of situations and its influence in cultures. <i>This is a one-year, 10-unit course.</i>	<i>No textbook Required; College Prep Outline; California State Standards</i>
Music	9-12	Graduation Course Fulfills Visual And Performing Arts Graduation Requirement May Be Taken Multiple Times for Credit (4o Max)	Students will discover the world of music through hands-on experience with a concert band/orchestra instrument. Music theory, conducting, and composition may be incorporated into the course to provide students with a broad base of musicianship skills. Students must keep a log of participation time in music activities (at least 800 minutes per learning period) and must either document participation in a performance or complete a pre-approved final project. <i>This is a one semester, 5-unit or one-year, 10-unit course. Multiple years of this elective may be taken.</i>	<i>No textbook Required; California State Standards, and logs for recording music activities</i>

Photography 1 (p) Photography 2 (p)	9-12	Graduation Course Fulfills Visual And Performing Arts Graduation Requirement Fulfills "F" Requirement for UC/CSU (Visual and Performing Arts) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	Photography is a yearlong course in the study of photography. In Photography 1 students are taught the terminologies and techniques of black and white photographic production and the mounting and display of finished work. Within a context of studio production, students will study the sensory, formal, expressive, and aesthetic properties of photographic art. Photography 2 will introduce advanced studio techniques building on the knowledge and skills introduced in the first semester. In this section of the course students will learn to work in color. Students will continue to evaluate critically their work and will engage in ongoing study of the history of photography. TLC is not responsible for providing a camera or processing fees. <i>This is a one-year, 10-unit course</i>	<i>Classic Essays on Photography</i> <i>Photographers Eye</i>
Photography 1 Photography 2	9-12	Graduation Course Fulfills Visual And Performing Arts Graduation Requirement	An introduction to digital photography, following the objectives for basics photography. The course requires weekly topical readings, written summaries and an 18 piece portfolio that uses the studied topical technique (ie. Natural light, landscape, portrait, action shots). <i>This is a one-semester, 5-unit course</i> TLC is not responsible for providing a camera or processing fees.	TLC <i>Photography I</i> Course Materials <i>Better Photo Basics</i> (if taking course for two semesters, 10 units)
Theater	9-12	Graduation Course Fulfills Visual And Performing Arts Graduation Requirement May Be Taken Multiple Times for Credit (4o Max)	As established in the California Standards for Visual and Performing Arts, this course is an in-depth study of the crafts utilized in the creation of a theatrical performance: directing, acting, writing, lighting, sets, singing, dancing, composing, choreographing, painting, make-up artistry, etc. Students must study both the various crafts that make up theater and participate in some way in theatrical productions. Students must keep a log of participation time (at least 800 minutes per learning period) in theatrical activities and either document participation in a performance or complete a pre-approved final project.	<i>No textbook Required; California State Standards, and logs for recording theater activities</i>

			<i>This is a one semester, 5-unit or one-year, 10-unit course. Multiple years of this elective may be taken.</i>	
Dance	9-12	Graduation Course Fulfills Visual And Performing Arts Graduation Requirement This course may not be taken to fulfill both P.E. and Visual and Performing Arts requirements at the same time. May Be Taken Multiple Times for Credit (4o Max)	Students learn to understand the capabilities of their own bodies as they experience current and historical styles of dance movement. They gain skill in artistic expression and greater appreciation for the historical and cultural contexts that shaped various dance forms. They learn musical perception and evaluation as they increase in physical control and confidence. Students must keep a log of participation time in a dance class (at least 800 minutes per learning period) and must participate in a performance or complete a pre-approved final project. <i>This is a one semester, 5-unit or one-year, 10-unit course. Multiple years of this elective may be taken.</i>	<i>No textbook Required; California State Standards, and logs for recording dance activities</i>
Art History 1 (p) Art History 2 (p)	9-12	College Prep Course Fulfills Visual And Performing Arts Graduation Requirement Fulfills "F" Requirement for UC/CSU (Visual and Performing Arts) or Fulfills "G" Requirement for UC/CSU (Academic Elective)	This course is designed to present an orientation to art as a reflection of society within a historical context. Beginning with prehistoric art and culminating in the world of art present day, students will learn to appreciate aesthetics of art, investigate meaning and interpretations, and question the impact of each piece on society. Students will study how the art that an artist creates is not always viewed as intended by the artist. Art will be viewed in books, museums, newsletters and internet. Students will further their understanding of art through the practice of studio art and creating their own pieces which reflect what they are learning about art's place in history. <i>This is a one-year, 10-unit course</i>	<i>Story of Art</i>

Electives

Computers 1 Computers 2	9-12	Graduation Course; Students must have access to a computer (PC-compatible or Mac) and be able to print off assignments. Fulfills Computer Graduation Requirement	In this beginning keyboarding course, the student will master touch operation on a computer keyboard. Correct fingering by touch and good techniques will receive primary emphasis; speed and accuracy will be given secondary emphasis. The student will use basic word processing functions on a variety of document types. Students in Computer Keyboarding will be required to keep a typing log and submit typing tests and assignments. They will take a final typing exam to document typing speed and accuracy. <i>This is a one-semester, 5-unit course or one-year, 10-unit course</i>	Broderbund: <i>Mavis Beacon Teaches Typing</i>
Computer Applications and Coding 1(p) Computer Application and Coding 2(p)	9-12	College Prep Course (pending approval) Students must have online access with a computer (PC-compatible or Mac) and be able to print off assignments. Fulfills Elective or Computer Graduation Requirement Fulfills "G" Requirement for UC/CSU (Academic Elective)	<i>Computer Applications and Coding</i> aims to prepare students for technology use in both the classroom and in everyday life. Building off of foundational concepts like internet safety and digital citizenship, students will experience and master various applications and web tools available. Assignments and projects will require students to concurrently manage and organize various tasks through Google Drive and Google Classroom. The course will foster the development of advanced skills and the various uses for digital tools as students apply them to unit projects. Students will begin developing their own programs and apps (Scratch: Blockly, MIT App Inventor: Android), writing formulas and script (HTML/CSS, Java Script, Python, and C++ code) to complete challenges and solve problems. The skills and the content learned in this course will prepare students for not only high school and higher education, but also for an increasingly competitive 21st century job market that demands a versatile digital skill set. This course integrates realistic life skills, useful knowledge and content that is relevant to both the modern individual and the world at large.	No required text

Career Planning 1 Career Planning 2	9-12	Graduation Course Fulfills Elective Graduation Requirement	Career Planning acquaints students in choosing a career suitable to them. Involves a systematic approach to making a career choice, covering self-assessment, decision-making techniques, and current occupational information. Appropriate for those undecided as to a career direction or who wish more career information prior to focusing their academic studies. Students will complete a pre-approved final project for this course. <i>This is a one-semester, 5-unit course or one-year, 10-unit course</i>	Glencoe <i>Exploring Careers</i> or AGS <i>Career Planning</i>
Computer Science 1 Computer Science 2	9-12	Graduation Course Fulfills Elective Graduation Requirement	Students in Computer Science will gain a basic knowledge of computer science that allows them to make computers work for them. They will learn the language computers speak and how one piece of computer equipment communicates with the others. Students will learn about the hardware of computers and how people use computers. They will also gain a general introduction to word processing, spreadsheets, databases, and the Internet. Students will complete a final or a pre-approved culminating project. <i>This is either a one-semester, 5-unit course or a one-year, 10-unit course</i>	Glencoe <i>Introductory Microsoft Office 2003</i> or Globe Fearon <i>Computer Literacy</i> or Globe Fearon <i>Survival Guide for Computer Literacy</i>
Driver's Education	10-12	Graduation Course Must meet minimum age requirement of 15 by start of course Online course requires access to computer Fulfills Elective Graduation Requirement	Driver Education is a course that emphasizes the theory and safety of driving. A major goal of the course will be to develop good perception, judgment, driving skills and decision-making ability. In addition, factors, which have a negative effect upon driving, will be discussed. Students will study licensing, vehicle registration, traffic rules and regulations, driver fitness (drinking, drugs, various physical and emotional problems), defensive driving; owning an automobile, and motor vehicle laws. At the end of the course, students are prepared to take the written California Driver's test in preparation for beginning behind-the-wheel instruction. This course does not include behind-the-wheel instruction. After taking and passing the DMV written driver's test and receiving a provisional permit, students may move on to behind-the-wheel instruction; however, this is not a course	Teen Driving School <i>Online Driver's Education Program</i>

			for credit offered by TLC. <i>This is a one-semester, 5-unit course</i>	
Study Skills	9-12	Graduation Course Fulfills Study Skills Graduation Requirement	Students in Study Skills learn about the effective habits that make for successful young adults. The book <i>The 7 Habits of Highly Effective Teens</i> and its accompanying workbook are used to teach seven essential characteristics that happy and successful teenagers all over the world over have in common. This course provides students with a step-by-step framework for boosting self-image, building friendships, resisting peer pressure, achieving goals, improving communication and relationships with parents, and much more. <i>This is a one-semester, 5-unit course</i>	Fireside <i>7 Habits of Highly Effective Teens</i> by Sean Covey
Physical Education	9-12	Graduation Course Fulfills PE Graduation Requirement May Be Taken Multiple Times for Credit (4o Max)	This course is designed to continue to give students the opportunity to gain personal fitness skills and knowledge through an enriched Physical Education program. Students will make choices, meet challenges and develop positive behaviors in fitness, wellness and movement activity. Emphasis is placed on students learning personal fitness and developing life-long habits related to exercise. Students are required to complete a minimum average of 200 minutes per week of aerobic exercise in some traditional format (dance, team sports, etc.) and document that activity in a PE log. <i>This is a one-semester, 5-unit course or one-year, 10-unit course. Multiple years of this elective may be taken.</i>	California State Standards, and logs for recording physical activities
Health 1 Health 2	9-12	Graduation Course Fulfills Elective Graduation Requirement	This course focuses primarily on students' personal health. It is wellness-based and offers students an opportunity to learn skills that could help them throughout their lives. This course will also give students the skills they need to stand up to peer pressure, avoid risky behaviors, and develop the resilience they need to handle the changes they'll face during their school years...and throughout their lives. Students will complete a pre-approved final project for this course.	Glencoe <i>Health</i> or AGS <i>Life Skills Health</i>

			<i>This is a one-semester, 5-unit course or a one-year, 10-unit course</i>	
Math 1 Math 2	11,12	Graduation Course Fulfills Elective Credit for Graduation Requirement	Basic Math is a foundational Mathematics program for students who still need more instruction in basic Mathematics skills: Whole Numbers; Number Theory; Fractions; Decimals; Ratio and Proportion; Percent; Introduction to Geometry; Metric Measurement; Customary Measurements; Measuring Circles, Cylinders, and Time; Graphs; Scale Drawing; Introduction to Algebra. Students will complete a midterm and final, or pre-approved project. <i>This is a one-year, 10-unit course</i>	<i>AGS Life Skills</i>
Consumer Math 1 Consumer Math 2	11,12	Graduation Course Fulfills Elective Credit for Graduation Requirement	Basic Consumer Math presents basic mathematics skills used in everyday situations—paying taxes, buying food, banking and investing, and managing a household, enabling students and young adults to become wiser, more informed consumers. Students will complete a midterm and final, or a pre-approved project. <i>This is a one-semester, 5-unit course , or one-year, 10-unit course.</i>	<i>AGS Consumer Math</i>
Integrated Math Support1-1 Integrated Math Support 1-2 Integrated Math Support 2-1 Integrated Math Support 2-2	9-12	Graduation Course Fulfills Elective Credit for Graduation Requirement Corequisite Integrated Math 1 or Integrated Math 2	Integrated Math Support 1 or 2 is designed to provide additional support for students enrolled in their entry level high school math course, Integrated Math I. Students will be given extra time and provided a variety of strategies to help build a stronger foundation for success in their math class. The course will focus on mastery of the standards being taught in Integrated Math 1 or 2. Opportunities will be provided for students to preview math concepts to be addressed in the Integrated Math class, including review of any prerequisite skills necessary for those concepts. Khan Academy, online graphing tools and other technology will be incorporated into the course to deepen their understanding of mathematical concepts. Mathematical thinking and problem solving skills will be fostered. <i>This is a one-year, 10-unit course</i>	<i>No Required Text</i>

Yearbook	9-12	Graduation Course Fulfills Elective Graduation Requirement May Be Taken Multiple Times for Credit (4o Max) Student must be enrolled in on-site Yearbook course in order to receive credit	Students learn aspects of yearbook design and production. These aspects include, but are not limited to publication design, photojournalistic writing, organization skills, and teamwork. Students in this class are responsible for the creation and production of a certain number of assigned page layouts. Page layout assignments include: collecting and taking photographs, conducting interviews, writing captions and stories, organizing the information in to well design page-layouts, meeting deadlines, and editing the pages for spelling errors and misinformation. <i>This is a one-year, 10-unit course</i>	<i>No Required Text</i>
Introduction to Engineering and Design 1 (p) Introduction to Engineering and Design 2 (p)	9, 10	Graduation Course Fulfills Elective Graduation Requirement Student must be enrolled in on-site IED course in order to receive credit Co-requisite: Integrated Math I Fulfills "G" Requirement for UC/CSU (Academic Elective)	Designed for 9th or 10th grade students, the major focus of IED is the design process and its application. Through hands-on projects, students apply engineering standards and document their work. Students use industry standard 3D modeling software to help them design solutions to solve proposed problems, document their work using an engineer's notebook, and communicate solutions to peers and members of the professional community. <i>This is a one-year, 10-unit course</i>	Delmar Cengage Learning: <i>Engineering Design: An Introduction</i>

Course Title Transcript Code	Grades	Special Information	Course Description	Textbook Options
Principles of Engineering 1 (p) Principles of Engineering 2 (p)	9-12	Graduation Course Fulfills Elective Graduation Requirement Co-requisite: Integrated Math I Fulfills "G" Requirement for UC/CSU (Academic Elective) Student must be enrolled in on-site POE course in order to receive credit	This survey course of engineering exposes students to major concepts they will encounter in a postsecondary engineering course of study. Students employ engineering and scientific concepts in the solution of engineering design problems. They develop problem-solving skills and apply their knowledge of research and design to create solutions to various challenges, documenting their work and communicating solutions to peers and members of the professional community. <i>This is a one-year, 10-unit course</i>	Delmar Cengage Learning: <i>Principles of Engineering</i>
Sociology of Media 1(p) Sociology of Media 2(p)	9-12	Graduation Course Fulfills Elective Graduation Requirement Fulfills "G" Requirement for UC/CSU (Academic Elective) Online course requires access to computer	This course will introduce students to the main concepts and theories for understanding the interwoven relationship between mass communication, culture, and the individual in the U.S. Students will investigate the development of social systems and structures in the U.S. through the critical analysis of cultural trends and media industries such as broadcasting, journalism, film, graphics, web design and consumerism. Students will work both individually and collaboratively to explore issues such as economic, political, and educational groupings as well as gender and racial stereotyping in the American media in order to provide multiple perspectives from which to analyze the impact of the media on society at both an individual and group level. Upon discovering the power of social views and the inherent predispositions of an individual mindset, students will begin to analyze policies, codes and sources of information as they relate to sociology, the media, and the individual. <i>This is a one-semester, 5-unit course , or one-year, 10-unit course.</i>	No Required Text

*Curriculum only available if enrolled in onsite class
