## California Department of Education School Accountability Report Card Reported Using Data from the 2016-17 School Year

By February 1 of each year, every school in California is required by state law to publish a School Accountability Report Card (SARC). The SARC contains information about the condition and performance of each California public school. Under the Local Control Funding Formula (LCFF) all local educational agencies (LEAs) are required to prepare a Local Control and Accountability Plan (LCAP), which describes how they intend to meet annual school-specific goals for all pupils, with specific activities to address state and local priorities. Additionally, data reported in an LCAP is to be consistent with data reported in the SARC.

- For more information about SARC requirements, see the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>.
- For more information about the LCFF or LCAP, see the CDE LCFF Web page at <http://www.cde.ca.gov/fq/aa/lc/>.
- For additional information about the school, parents/guardians and community members should contact the school principal or the district office.

### DataQuest

DataQuest is an online data tool located on the [CDE DataQuest Web page](#) that contains additional information about this school and comparisons of the school to the district and the county. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g., test data, enrollment, high school graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions may include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### About Our School

The Learning Choice Academy (TLC) is a California charter school dedicated to assisting parents who school their children in grades kindergarten through 12 at home. TLC Academy's mission is to empower students to reach their full potential by providing choice in education within collaborative triads of parents, students, and school. TLC provides books and instructional materials, a certificated teacher to work in partnership with parents, special student allowances for enrichment classes, field trips, and other activities, including science labs, math labs, a full day of optional student classes, as well as a wide variety of other educational services. Special activities are planned that offer opportunities for students and their families to meet and participate in fun activities that provide both educational and social benefits. Some of these school activities include monthly schoolwide assemblies, field trips, Project Showcase, a spelling bee, and a countywide Community Field Day.

## A. Conditions of Learning

### State Priority: Basic

The SARC provides the following information relevant to the State priority: Basic (Priority 1):

- Degree to which teachers are appropriately assigned and fully credentialed in the subject area and for the pupils they are teaching;
- Pupils have access to standards-aligned instructional materials; and
- School facilities are maintained in good repair

## School Facility Conditions and Planned Improvements

Although considered a single school, The Learning Choice Academy maintains multiple resource centers throughout San Diego County. TLC Academy considers the physical appearance and safety of its school sites very important. Each site provides a quiet space where parent, student, and educational partners can meet, as well as additional spaces for families to relax together as they wait. TLC Academy facilities comply with the Americans with Disabilities Act. Classrooms are provided at every site for student instruction, committee meetings, and other group gatherings.

## B. Pupil Outcomes

### State Priority: Pupil Achievement

The SARC provides the following information relevant to the State priority: Pupil Achievement (Priority 4):

- **Statewide assessments** (i.e., California Assessment of Student Performance and Progress [CAASPP] System, which includes the Smarter Balanced Summative Assessments for students in the general education population and the California Alternate Assessments [CAAs] for English language arts/literacy [ELA] and mathematics given in grades three through eight and grade eleven. Only eligible students may participate in the administration of the CAAs. CAAs items are aligned with alternate achievement standards, which are linked with the Common Core State Standards [CCSS] for students with the most significant cognitive disabilities); and
- The percentage of students who have successfully completed courses that satisfy the requirements for entrance to the University of California and the California State University, or career technical education sequences or programs of study.

#### CAASPP Test Results in ELA and Mathematics for All Students

##### Grades Three through Eight and Grade Eleven (School Year 2016-17)

Subject	Percentage of Students Meeting or Exceeding the State Standards					
	School		District		State	
	2015-16	2016-17	2015-16	2016-17	2015-16	2016-17

Mathematics (grades 3-8 and 11)	27%	21%	42%	43%	36%	37%

Note: Percentages are not calculated when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Students with Disabilities	95	93	97.89%	16.13%
Students Receiving Migrant Education Services				
Foster Youth				

Note: ELA test results include the Smarter Balanced Summative Assessment and the CAA. The "Percent Met or Exceeded" is calculated by taking the total number of students who met or exceeded the standard on the Smarter Balanced Summative Assessment plus the total number of students who met the standard (i.e., achieved Level 3--Alternate) on the CAAs divided by the total number of students who participated in both assessments.

Note: Double dashes (--) appear in the table when the number of students is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The number of students tested includes all students who participated in the test whether they received a score or not; however, the number of students tested is not the number that was used to calculate the achievement level percentages. The achievement level percentages are calculated using only students who received scores.

Note: Science test results include California Standards Tests (CSTs), California Modified Assessment (CMA), and California Alternate Performance Assessment (CAPA) in grades five, eight, and ten.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy.

Note: The 2016-17 data are not available. The California Department of Education is developing a new science assessment based on the Next Generation Science Standards for California Public Schools (CA NGSS). The new California Science Test (CAST) was piloted in spring 2017. The CST and CMA for Science will no longer be administered.

**Career Technical Education Programs (School Year 2016-17)**

The Learning Choice Academy offers Project Lead the Way (PLTW). TLC currently offers the following courses:

**1. Introduction to Engineering Design**

Students dig deep into the engineering design process, applying math, science, and engineering standards to hands-on projects like designing a new toy or improving an existing product.

**2. Principles of Engineering**

Students explore a broad range of engineering topics including mechanisms, strength of structure and materials, and automation, and then they apply what they know to take on challenges like designing a self-powered car.

**3. Aerospace Engineering**

Aerospace Engineering (AE) is the study of the engineering discipline which develops new technologies for use in aviation, defense systems, and space exploration.

Each PLTW Engineering course engages students in interdisciplinary activities like working with a client to design a home, programming electronic devices or robotic arms, or exploring algae as a biofuel source. These activities not only build knowledge and skills in engineering, but also empower students to develop essential skills such as problem solving, critical and creative thinking, communication, collaboration, and perseverance.

PLTW supports a balanced approach to assessment for all programs, integrating both formative and summative assessments that allow teachers to monitor student progress and modify instruction as needed. Through a balanced assessment approach, assessment is an ongoing activity. Students demonstrate their knowledge throughout the course by completing activities, projects, and problems using a variety of assessment tools – such as performance rubrics, reflective questioning, portfolio reviews, and End-of-Course (EoC) assessments – to deepen and expand their knowledge and skills.

## C. Engagement

### State Priority: Parental Involvement

The SARC provides the following information relevant to the State priority: Parental Involvement (Priority 3):

- Efforts the school district makes to seek parent input in making decisions for the school district and each schoolsite

#### Opportunities for Parental Involvement (School Year 2017-18)

Parents and other relatives are encouraged and welcomed to become involved in the formal education of their children. Educational research validates that support at home is critical to a child's academic success. There are many opportunities to be involved at their children's school site, including: governance committees, special events, fundraising events, parent organizations, in classrooms, and at the district level by participating in cluster councils, district advisory councils/committees, and special events.

Parents are encouraged to support their children at home by making their expectations about school clear and creating a positive learning environment at home.

We are committed to communicating with and engaging parents as partners in their children's education. We are also committed to obtaining community resources for our school and invite all members of our community to assist us in the education of our students. Parents have many opportunities to be involved at their children's school site (i.e., advisory committees, special events, fund raising events, parent organizations, and in classrooms). We encourage parents to support their children at home by making their expectations about school clear and creating a positive homework and learning environment.

If you want to get involved, please contact Renee Olmeda at (619) 463-6845.

## School Safety Plan (School Year 2017-18)

The Comprehensive School Safety Plan is revised and reviewed with staff each year. The plan includes all procedures and standards for drills, first aid, and evacuations as well as guidelines for a safe & orderly environment. Each Resource Center assigns Incident Command Team roles for staff in the event of an emergency. All staff participate in yearly training for Child Abuse Reporting and bi-yearly certification for CPR and First-Aid.
