ONLINE CURRICULUM

[Time4Learning](#)

Gr. K-5

Time4Learning is an approach that takes advantage of today's technology. It's a convenient, online home education program that combines learning with fun educational teaching games.

Time4Learning helps parents build interesting diverse days. By shifting from computer-based lessons to discussion, or from paper and pencil exercises to art projects, children stay engaged and benefit from different teaching methods. Variety keeps children motivated and attentive throughout the day.

Time4Learning's online learning system combines in one homeschool curriculum interactive lessons, multimedia reinforcement activities, printable worksheets, learning games, and assessments with reports.

Subjects Covered: Language Arts and Math; Social Studies and Science are supplemental and will need to be ordered separately

Format: Online program – requires Internet access

Learning Style: multi-sensory

Teaching Style: structured, low prep, moderate interaction required; basic computer skills required

THEMATIC/LITERATURE BASED

[Build Your Library](#)

Gr. K-5

Build Your Library is an integrated curriculum that uses literature and informational text as the foundation of your curriculum. This program is designed for home school and incorporates narration, copywork, dictation and memory work into your child's education. Art study ties into history and science is mostly literature based in the elementary years. The curriculum has the book lists for the year (some books available through TLC), weekly and daily plans, and resource/activity pages. A separate Math program will be needed. For K-2 a separate reading and phonics program is needed as well. This curriculum does not teach reading.

Subjects Covered: Language Arts, Social Studies and Science

Format: Teacher's Guide with picture books, novels, and informational books (as available)

Learning Style: multi-sensory; Charlotte Mason

Teaching Style: structured, moderate prep, high interaction required

Publisher: Build Your Library

Pairing Suggestions: Story of the World (Gr. 1-4), History of US (Gr. 5)

READING AND PHONICS

[Handwriting Without Tears TK Programs](#)

Gr. TK

Unique lessons are memorable and provide real-life context, so children can easily master new concepts. Skills are taught explicitly and sequenced from the easiest to the most challenging to provide opportunities for differentiated instruction. Lessons address general readiness, alphabet knowledge,

letter/number recognition and formation, counting, drawing, shapes, and colors. Integrated assessments to check student learning after each lesson.

[The Ordinary Parent's Guide to Teaching Reading Combo Pack](#)

Gr. K-1

Learning to read is often thought of as a mystical process that requires a trained professional. Remember: patience, frequency, and consistency is the key. Take as long as you really need to, but faithfully move your way through "A is the first vowel we will say," to the fourteen syllable supercalifragilisticexpialidocious. Using the explicit phonics method (rather than sight-word or basal reading systems), the lessons begin with short vowel sounds, and then move through consonants, blends, long-vowels, silent letters, r-changed vowels, two- and three-syllable words, possessive words, contractions, and more.

Each lesson is organized with notes to the teacher, scripted lesson content for the teacher to give to the student, and words for the child to repeat after the teacher or read to himself. There are no pictures on the pages, and this keeps students from being distracted or from becoming dependent upon pictures for guessing. Guessing is not the goal; memorization is.

Literature and Writing Connections

Read a Book—Make a Book

Science and Math

How to Make Books with Children Series just got better, with the addition of *Beginning Writers*, specially developed for grades K-2. Each of the 22 topics in this handy resource starts with: prewriting suggestions,

a list of current literature to read, oral language experiences that build vocabulary, and background for writing. Your children can then create the type of book that suits their individual writing levels. Top off each student's story with a charming, reproducible cover. Using the same forms, you can make group books, too. Each topic has two group-book ideas and clip art to enhance the books. There are several books to choose from and you may choose one and later switch to another!

Cursive Connections

Gr. 3-5

This workbook and guide is fairly traditional in the methods it uses for teaching handwriting. One distinction emphasized is letter connections, so letters are never practiced alone, but always paired with another letter. It doesn't offer as much practice as other handwriting curricula, so it works best for the older student who has decided it's time to learn cursive handwriting, or for students who need additional practice. Comes in Modern and Traditional Cursive.

[Do California!](#)

4th grade

The *Do California!* social studies curriculum was designed for California History teachers and parents searching for a comprehensive California unit study or homeschool social studies curriculum closely aligned with California State Standards. The program is divided into four sections and each lesson requires students to complete vocabulary cards, read about a California topic, and complete a comprehension activity that will expose them to various standardized test formats. In addition, each lesson includes a balanced mix of lower and higher level activities for the students to complete. Vocabulary quizzes, mapping, graphing, puzzles, research, writing, timelines, and following directions are the types of activities that will help students learn more about California. Additional supplemental materials are available.

Format: spiral bound teacher's edition and Teacher's Resource, with student edition and consumable student workbook

Learning Style: directed

Teaching Style: low prep

[A History of US](#)

Gr. 5

Your child will learn all about American history in an interesting format. No stale textbook here. Each volume covers a specific period of our history. These books are filled with historical photographs, political cartoons, and first hand accounts of history. They work great as a backbone of a Unit Study as well as for read-aloud and private readings. Fifth grade California State Standards are covered in books 1-5 (Early Americans through 1860). This program is aligned to grade level California Content Standards in History-Social Science.

Format: multi-volume set of non-consumable readers with reproducible study sheets and tests

This series, designed with good science and easy teaching in mind, covers concepts on a range of topics. Activities help children practice skills in observation, analysis, communication, making comparisons, prediction, critical thinking, and recording. Contains many ready-to-go resources, such as record sheets, logbook forms, minibooks, and picture cards. A mix of activity and worksheet—artsy-craftsy kids will like the coloring, journaling, cut-paste, but kids who don't like that will find much to like also.

Science in a Nutshell

Gr. 2-5

Explore and discover science concepts and processes through inquiry and hands-on learning. Fun, meaningful activities for student-directed individual or small-group learning. Each Nutshell includes 8-12 activities that develop a specific science topic, with an activity guide that has simple, clearly written instructions, and an activity journal in which students may record observations and data. Materials for lab experiments are included, except for common household materials. Strands cover Earth, Physical, Life, and Human body topics.

Format: kit with consumable and non-consumable pieces, activity guide, and activity journal; may also order *Sciencesaurus* for content support; Science A-Z also available for literacy and content support

Learning Style: multi-sensory; interactive

Teaching Style: structured, low prep, moderate to high interaction required

Young Scientist's Club

Gr. K-2

The Young Scientists Club works similar to a magazine subscription in that your child will be sent a complete science kit on a regular basis. Each kit reinforces what was learned in previous kits as well as introduces what will be learned in future kits, creating a continuous curriculum of science learning. Each kit contains several science experiments and takes, on average, one hour to two hours to complete (with some long-term projects such as growing bacteria and measuring rainfall). The kits cover topics ranging from batteries and fossils to the human body and volcanoes. In each kit you receive all the materials needed for the experiments except for common recyclable and household products (i.e., plastic bottles, jars, baking soda, vinegar, etc.).

Format: consumable kits which are received one at a time; some materials from a kit may be also needed for the next kit in the series so don't throw them away! Science A-Z also available for literacy and content support

Learning Style: multi-sensory; interactive

Teaching Style: structured, low prep, moderate to high interaction required
